## ARE NOT "SWINDLERS."

Mr. Gifford Mable, of the Gifford Mable Company, Chicago, called on THE LEDGER this morning and claimed that an article in yesterday's paper did his house an injustice. Chicago has 4,000 policy shops running wide open, and more than 146,000 plays are made daily. The business is controlled by nine big companies, backed by prominent politicians who have "pulls." In yesterday's issue we called our readers' attention to a lot of peddlers, who have invaded our county for the purpose of selling—the Lord knows what, we don't—at very low prices, for which they will take negotiable notes. We understand that the Manager of the "Troupe" interviewed one or more of our Bankers with a view to discounting, without recourse, the notes they may secure at a much higher rate of discount than legitimate business paper sells for. Intelligent people can readily draw conclusions.
